WWW.VENTBIO.COM

Ventura Medtech Solutions also known as “VMS” based in Simi Valley, California serves the entire of State of California spanning from San Francisco to San Diego. Our service team made up of engineers and supported by technicians. Unlike other companies that offer very basic biomedical services we on the other hand provide an array of solutions simplifying the service delivery process.

Partnering with VMS gives you access to our full capabilities and resources such as:

SHOP REPAIR/REFURBISH/REFRESH

Drop off or ship your equipment to us for a small fee. For those looking to extend the life of your equipment we offer refurbishment and repaint of your old looking assets.

FIELD SERVICE/WHITE GLOVE TRANSPORT

Our field service engineers can help you move & transport equipment from location to location. Save your hard earned dollars & share equipment between practices.

PREVENTATIVE MAINTENANCE (PM)

Preventative Maintenance in accordance to manufacturer standards or better. We own our proprietary Computerized Equipment Management System to benefit all our customers.
